

Setup Apple Sign In with Reflow

Login to Apple's Developer portal and follow these steps

1. Create an App ID

1.1 In "Identifiers" click the blue Plus Sign to create a new App ID

1.2 This is your Team ID. Copy it to the Reflow configuration form.

1.3 Scroll down in Capabilities and enable Sign In with Apple

2. Create a Services ID

2.1 Choose Services IDs from the list

2.2 Click the Plus Sign to create a new services id

2.3 Enter a description. Users will see this on their sign in screen

2.4 Choose an identifier. Copy it to Reflow as the "Services ID" setting.

2.5 After saving in the last step, edit your Services ID again, enable "Sign in with Apple" and press "Configure"

2.6 Select the app id you created in the previous step

2.7 Enter your Reflow Sign in domain

2.8 Enter your Reflow Redirect URI and press Next

2.9 Press Done to confirm

3. Create a Key

3.1 In "Keys" click the blue Plus Sign to create a new Key

3.2 Enable "Sign in with Apple" and press the "Configure" button

3.3 Choose the App ID you created earlier, and press "Save"

3.4 You can now press "Continue"

3.5 Press "Register" to finish the setup

3.6 Download your key file and upload it to Reflow

3.7 Copy the Key ID to the Reflow configuration form

With this your Apple Sign In setup in Reflow is complete!
